Channel Mitigation Monitoring Sheets I, II, III, AND IV

Monitoring Data Record

Project Title: U-3312 (Black and Decker)	Rd.) COF	E Action ID:	1998-0-1948
Project Title: <u>U-3312 (Black and Decker)</u> Stream Name: <u>Site 2 (Permit Drawi</u>	ings) DWQ Nu	nber:	
City, County and other Location Information	on: Black and Decke	er Road off of Bu	ıs. I-95/US 301 in
Cumberland County			
Date Construction Completed: April	2003	Monitoring	Year: (1) of 2
Ecoregion:	8 digit HUC unit	03030004	
USGS Quad Name and Coordinates:			
Rosgen Classification:			
Length of Project: 173' Urban or Ru	ural: <u>Urban</u> V	Watershed Size:_	
Monitoring DATA collected by: M. Green.			
Applicant Information:			
Name: NCDOT Roadside Environr	mental Unit		
Address: 1425 Rock Quarry Rd. Ra	lleigh, NC 27610		
Telephone Number: (919) 861-37			
Consultant Information:			
Name:			
Address:			
Telephone Number:			
Project Status: Complete			
Monitoring Level required by COE and	DWQ (404 permit/	401 Cert.) : <u>Level</u>	<u>. (1) 2 3</u>
Monitoring Level 1 requires completion	of Section 1, Section 2 of	ınd Section 3	V
Section 1. PHOTO REFERENCE SITES			
(Monitoring at all levels must complete this section	on)		
Attach site map showing the locat		ll reference phot	os with a site
designation (name,	·-·		
number, letter, etc.) assigned to each refere	ence photo location	Photos should b	e provided for all
structures and cross section locations, shou			
downstream view. Photos taken to docume			
taken to document vegetation should be tak			
photos and a description of each reference			
identification board in each photo to identifi	•	ve recommend ti	ie ase of a photo
racinitieation board in each photo to identify	ry location.		
Total number of reference photo location	ns at this site. A	Fotal Photos	
Total number of reference photo location	ins at this site	I Otal I llotos	
Dates reference photos have been taken	at this site: 12	/30/04 3/9/05	
Dates reference photos have been taken	at tills site12	30/04, 3/3/03	
			
Individual from whom additional photos	s aan ha ahtainad (nama adduass r	hono).
individual from whom additional photos	s can be obtained (iame, address, p	/Honej
Other Information relatives to site what	oron oo.		
Other Information relative to site photo ref	erence:		
If required to complete Level 3 monito	ring only ston here:	otherwise comp	lete section 2
11 required to complete Devel 5 monito	ing only stop note,	omer wise, comp	1010 00011011 2.

Section 2. <u>PLANT SURVIVAL</u> Attach plan sheet indicating reference photos.

Identify specific problem areas (missing, stressed, damaged or dead plantings): Streambank vegetation is dormant at this time.
Estimated causes, and proposed/required remedial action:
ADDITIONAL COMMENTS: Trees are approximately 1-2' in height.

If required to complete Level 1 and Level 2 monitoring only stop here; otherwise, complete section 3.

Section 3. CHANNEL STABILITY

Visual Inspection: The entire stream project as well as each in-stream structure and bank stabilization/revetment structure must be evaluated and problems addressed.

Report on the visual inspection of channel stability. Physical measurements of channel

stability/morphology will not be required. Include a discussion of any deviations from as-built
and an evaluation of the significance of these deviations and whether they are indicative of a
stabilizing or destabilizing situation.
The stream is stabalized at this time.

Date	Station	Station	Station	Station	Station
Inspected	Number	Number	Number	Number	Number
Structure					
Type

piping					
through or					
around					
structure?					
Head cut or					
down cut					
present?					
Bank or scour					
erosion					
present?					
Other					
problems					
noted?					

NOTE: Attach separate narrative sheets to each monitoring report describing/discussing the overall monitoring results. Include the identification of specific problem areas/channel failures, estimated cause and proposed/required remedial action. This should include a brief discussion of any parameter that has changed significantly from as-built.
